

# Why have a Splashback?

---

# Splashbacks Explained

**Splashbacks are glass panels that can be versatile in size, shape and aesthetics thanks to the skills of glazing experts, Abbey Glass. In areas of the home where wall protection is needed against 'splashing' from taps or cooking areas, splashbacks provide the perfect answer. Our professional glaziers can design splashbacks made from toughened and heat resistant glass, creating a finish that combines high functionality and aesthetics.**

When cooking or running water, moisture, steam or foodstuffs can potentially damage the walls of your home; glass splashbacks are placed over these vulnerable areas, acting as easy-to-wipe protection for your wall. Not only do splashbacks boast a practical purpose, but they also have fantastic decorative appeal and are available in a range of colours to complement any decor.

## Why have Splashbacks?

- Strong and durable
- Heat-resistant
- Stylish appearance
- Easy to clean

# Types of Splashbacks

Splashbacks are a versatile product that can be used in various rooms of the home, including the kitchen, bathroom, living room and dining areas.

## • KITCHEN SPLASHBACKS

Spills and splattering are frequent occurrences in kitchens, especially in areas around the hob, oven and taps. Temperatures vary in a kitchen. That's why the expert glaziers at Abbey Glass craft kitchen splashbacks from toughened, heat-resistant glass to prevent them from cracking from the fluctuating heat. Hygienics are also vital in food preparation areas, making the easy-to-clean quality of splashbacks an attractive asset.

## • BATHROOM SPLASHBACKS

With a sleek finish that is easy to clean, splashbacks are the stylish solution for your bathroom. Glass is the perfect material for a bathroom as moisture and shower steam will not damage it or impair the appearance of the splashback. Whilst bathrooms are relaxing environments, they can also become spattered with shampoo and soap scum, making the easy-wipe quality of splashbacks all the more desirable.

## • LIVING ROOM SPLASHBACKS

Make a statement in your living room with sleek glass panels. Splashbacks in living rooms serve a more decorative purpose, reflecting light from the shiny surface and making the space appear larger. These features will become the talking point of any room, especially when crafted in a colour to complement your furnishings.

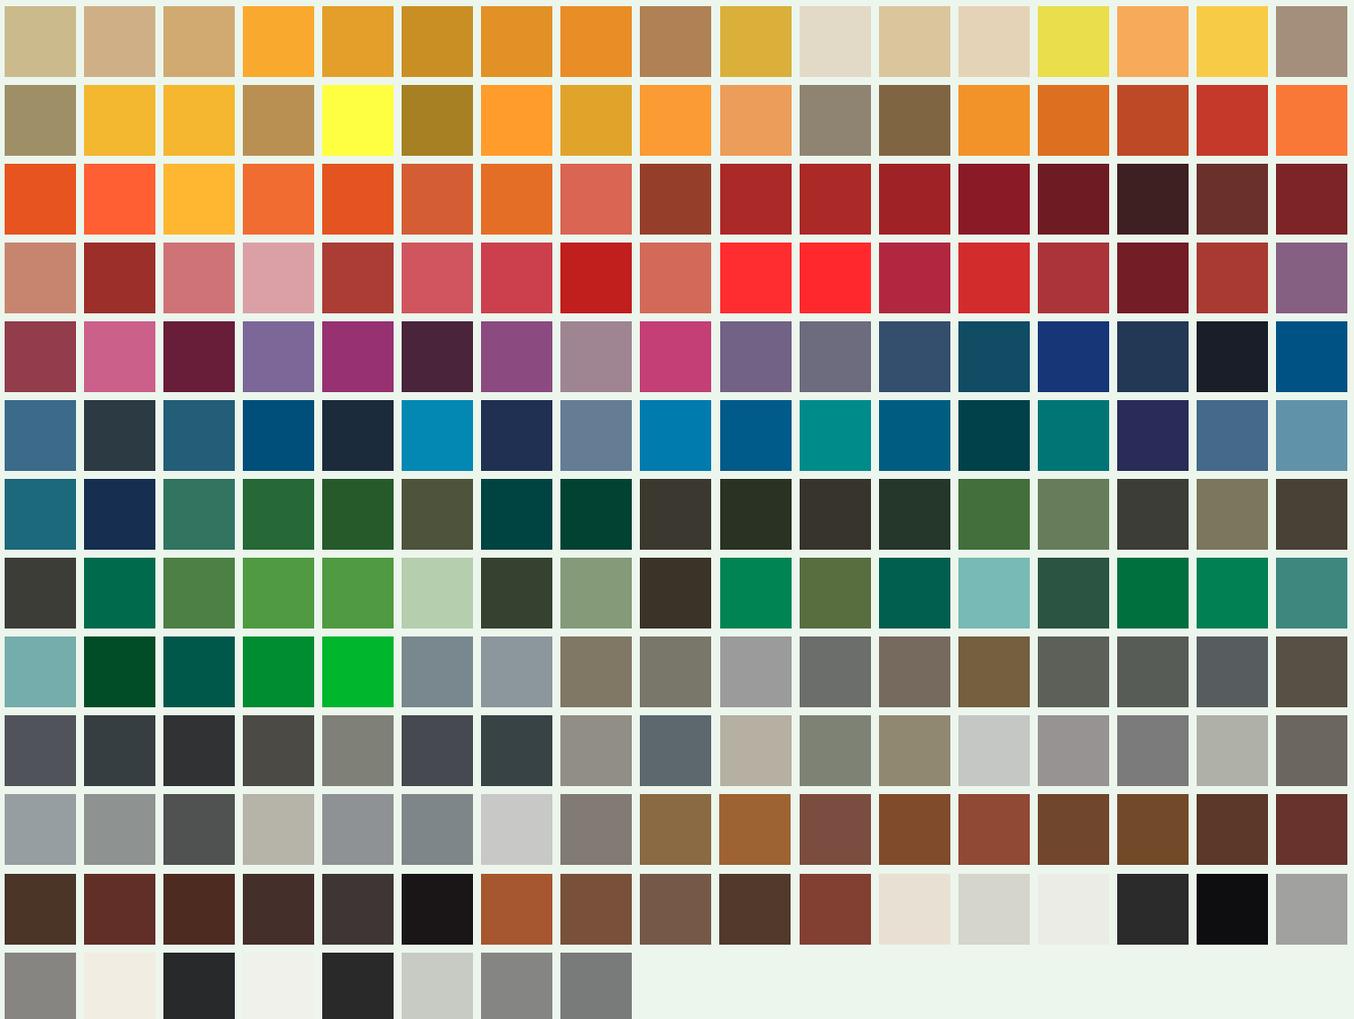

## • DINING ROOM SPLASHBACKS

Entertain your guests in a stylish setting with dining room splashbacks from Abbey Glass. If you've been searching for a unique focal point for your dining room then splashbacks could be the solution. Whether it's just a few accent panels, or a statement wall, give your visitors something to talk about.

# Colours for Splashbacks - Colour Chart

Make an impact with your splashbacks. Plain glass is not the only option; we have a broad spectrum of shades available for you to choose from. Splashbacks are functional necessities, but choosing the right colour of glass can also turn your splashback into a style statement. At Abbey Glass, we strive to offer our customers a flexible and extensive range of colours to choose from, to ensure a tailored look that's perfectly suited to your interior. If you have a RAL or Dulux code, the Abbey Glass team can use it to find the perfect colour match for you. Feel free to use our useful colour chart to make your decision, or call or visit Abbey Glass to get some expert advice.

## COLOUR CHART

# How are Splashbacks installed?

**Abbey Glass provide a premier crafting and installation service of all splashbacks. We're with you every step of the way to ensure a perfect fit, whether in a domestic home or a commercial setting.**

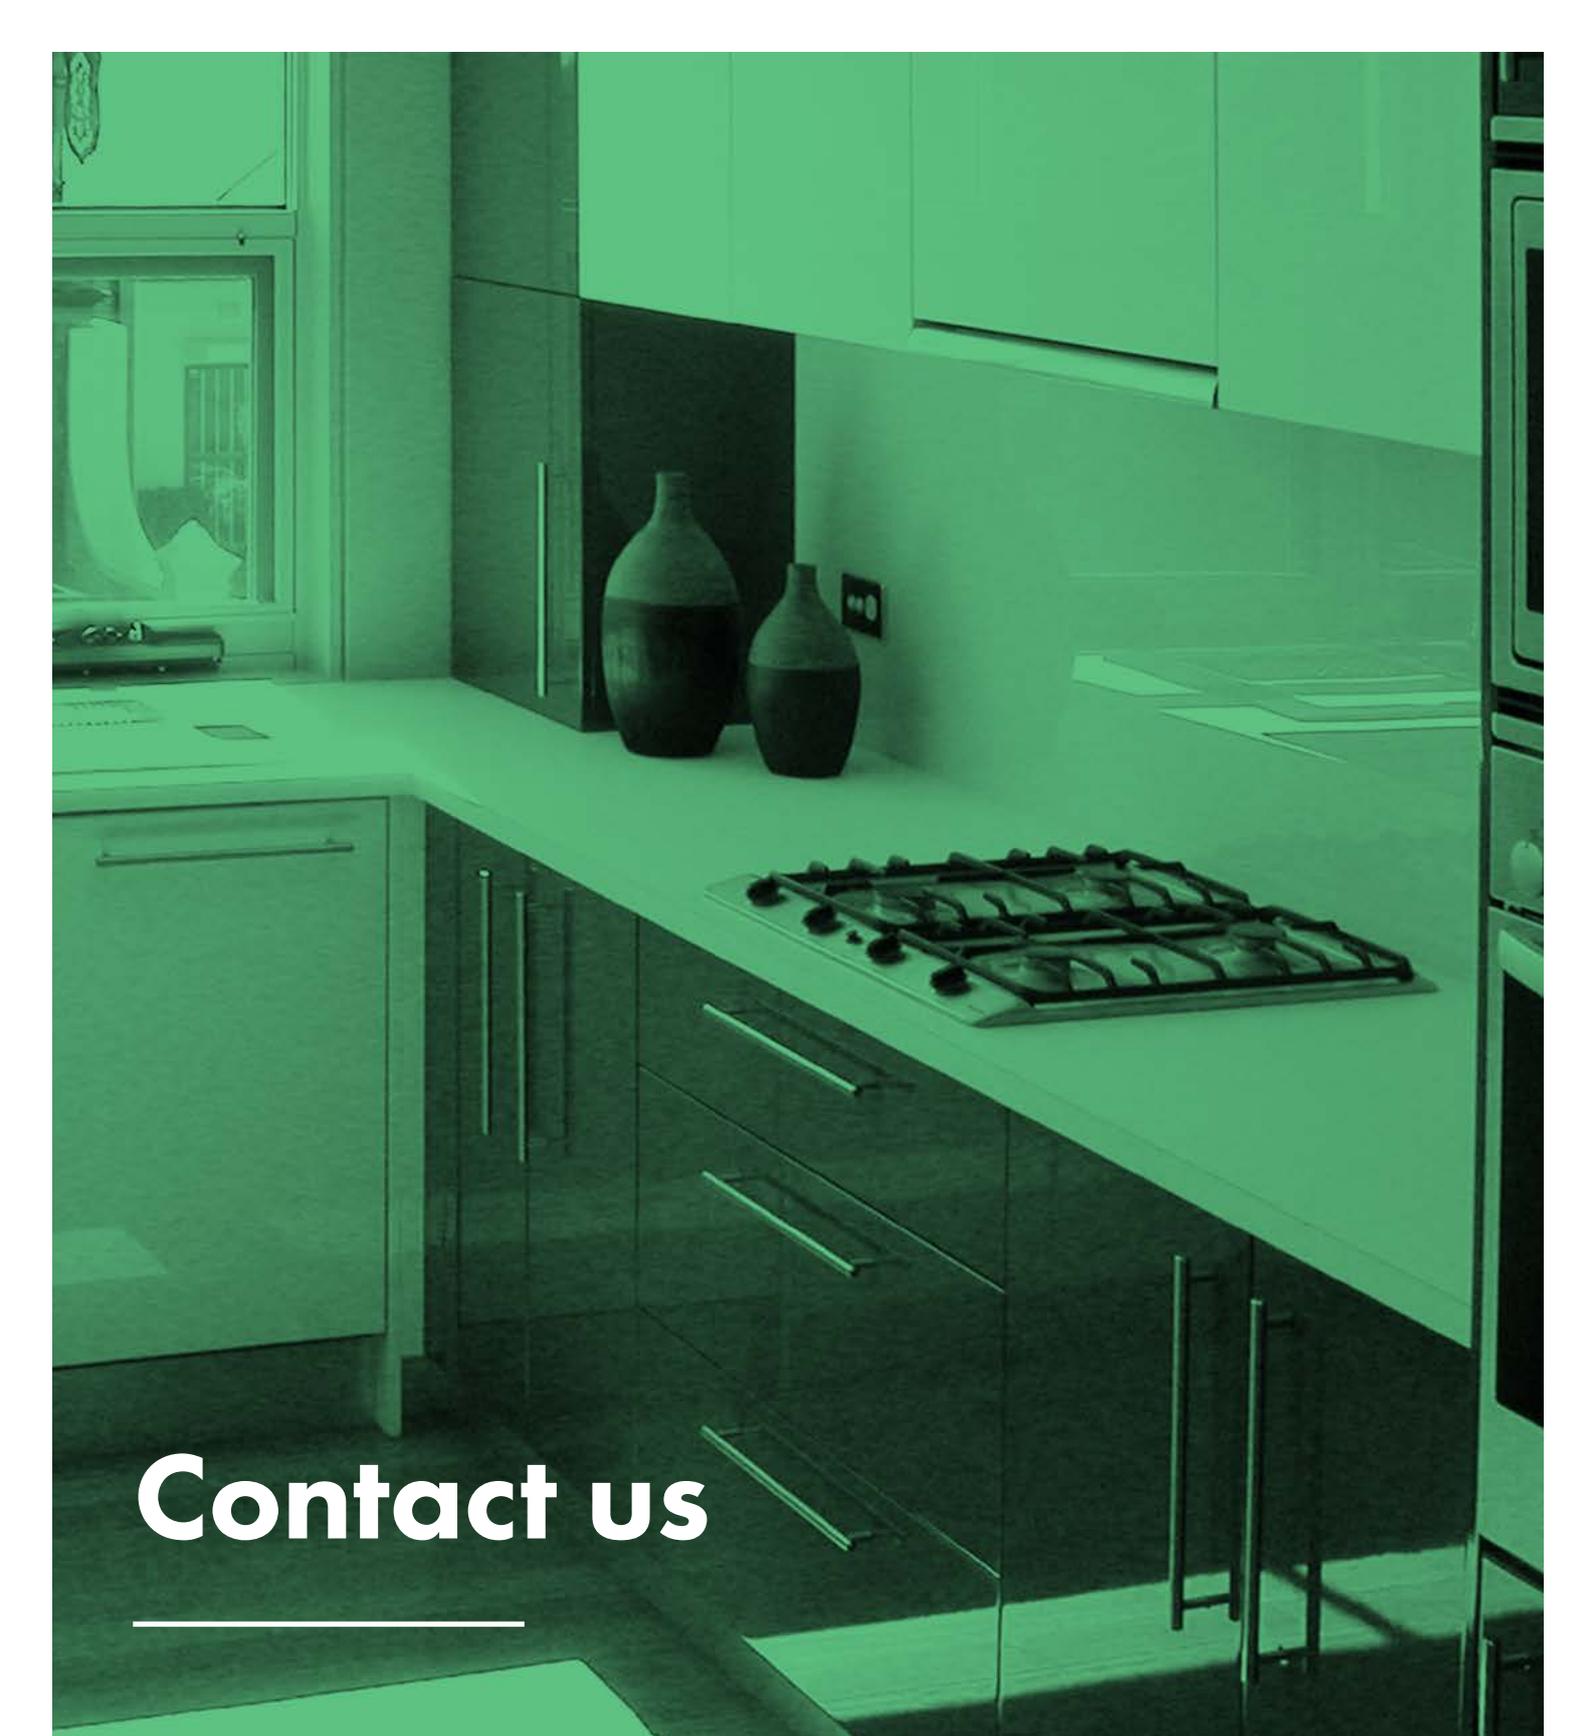

1. Choose your splashback colour from the colour chart on the previous page, or by asking for expert advice from our team. If you have a RAL code or a Dulux code, simply let us know and our team can use their skills to create a close match.
2. Decide on any other design or layout factors.
3. Call out the Abbey Glass professionals who can accurately measure the location of your splashbacks to ensure a perfect fit. Alternatively, make the measurements yourself but remember to take into account any light switches or sockets.
4. Our specialist glaziers will then craft bespoke splashbacks to fit into your space.
5. Finally, your splashbacks will be installed precisely and to high standards.

**We pride ourselves on our superior splashbacks and easy installation process. To get a free quote, simply contact the Abbey Glass team today.**
